

Community Grants Scheme 2023

With an emphasis on community development and social inclusion, Dublin City Council provides financial support to a wide range of community, resident, environmental and festival groups through annual local community grants of which there are 3 strands:

1. Community Grants
2. Informal Adult Education
3. Tom Clarke Fund

The 2023 scheme was approved in late 2022 as part of City Council's annual budgetary process and the grants were open for applications between 6 July and 18 August 2023.

For the Community Grant and Informal Adult Education strands, applications were received through the Citizen Hub online system. A total of 723 applications were received and following assessment, 648 were recommended for approval.

Eighty-eight applications were received, assessed and recommended for approval for the Tom Clarke Fund. This strand permits applications from specified neighbourhoods in the Central and South East Areas within close proximity to the Tom Clarke Bridge.

In all instances, grant applications are evaluated in the context of available finance, value to the community and compliance with the relevant policies and objectives of City Council. This includes the Community Development action plans at local level and relevant strategies relating to social inclusion and integration.

The table below gives a breakdown of the number of grants being put forward for approval and their total sum.

In October 2023, each Dublin City Council Area Committee noted a detailed report on applicants/grantees being recommended for approval at the December City Council meeting. These are set out in Appendices 1 to 5.

I hereby request approval of The Community Grant Scheme 2023 as outlined to the amount of €617,530.

For noting, €140,000 was also awarded to Summer Projects in 2023 across Dublin City.
