| 18 | 11147167 | Traffic Lights (Rescind) | GRACEFIELD ROAD (NC) | Dublin 5 | request removal of traffic lights. | Not Recommended | <p>As a result of observations and representations to the Environment and Transportation Department, zebra crossings have been phased out over the years in favour of signalised crossings.</p> <p>Essentially, some drivers don't take notice of zebra crossings as they should, because there's no red light telling them to stop and pedestrians don't feel as safe as they do with a signal telling them when to cross. Zebra crossings give priority to pedestrians but do not actively slow down vehicles, they may induce unsafe behaviour from both driver and pedestrian alike. The issue of safety is more critical for the visually impaired NCBI have found zebra crossings undesirable from their point of view. In addition compliance with the law regarding this type of crossing is very difficult to enforce unless offending motorists are caught driving recklessly/dangerously</p> <p>The City Council's policy is to promote and prioritise pedestrian movement, cycles and public transport over car users. The Transport Advisory Group does not recommend the rescindment of traffic lights at the aforementioned location.</p> <p>The matter has been referred to the DCC's Intelligent Transport Systems department to review the traffic light sequencing and ensure that adequate time is allowed to ensure the safety of road users during all phases of the traffic light sequence.</p> | Member of the Public | 08/11/2023 | 0 |
