Stoneybatter Greening Strategy – February 2024 Update

Arbour Hill Rain Garden:

Currently on-site and scheduled for completion in February 2024.

Ben Edair Road:

The Ben Edair tree planting project has successfully undergone the tender assessment, and a contractor has been approved and appointed. Construction review is currently in progress, with the project anticipated to be completed in 2024.

Fitzwilliam Place N:

Tree planting and junction realignment project on Fitzwilliam Place N has completed its tender assessment stage, and a contractor has been approved and appointed. The project is currently undergoing construction review and is expected to be completed in 2024.

Cowper Street Green Zone:

The Cowper Street Green School Zone project, developed in collaboration with E&T, is currently in the construction tender preparation stage. Confirmation of NTA contributions is pending. The project is to be completed in 2024.

Montpelier Hill Tree Planting & SuDS:

The Tree Planting & SuDS project at Montpelier Hill is undergoing a comprehensive design review. A revised tender is expected to be issued for contractor procurement in 2024.

Ivar Street:

The Ivar Street tree planting and junction realignment project are currently in the feasibility and public consultation stage. Upon achieving consensus for the new layout, a contractor will be procured for implementation. Depending on feedback received, it is anticipated that these works will be carried out in 2024
