Re: Draft Noise Action Plan 2024 - 2028

At the meeting of the Climate Action, Environment and Energy Strategic Policy Committee held on 31st January 2024 a presentation and report was given in relation to the Draft Noise Action Plan.

It was intended to seek the endorsement of the Committee to seek approval from the City Council to put the draft plan out public consultation but this did not occur.

The endorsement of the Committee is now therefore sought to seek the approval of the City Council to put the plan out to public consultation
